DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on April 02, 2007 has been entered.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on April 2, 2007 was filed. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner. See attached form PTO-1449.

Allowable Subject Matter

3. Claims 20-26 are allowed.

The following is an examiner's statement of reasons for allowance:

Art Unit: 1765

The references of record do not teach or suggest a method of forming an air gap comprising: disposing a composition comprising one or more multi-ethylenically unsaturated monomers on a device substrate and curing the multi-ethylenically unsaturated monomers to form a cross-linked polymeric sacrificial material layer on the device substrate. A person of ordinary skill in the art would not have been motivated to apply recited process steps to form the sacrificial material because applying multi-ethylenically unsaturated monomers on a device substrate and curing would use device substrate as template which requires interaction between device surface and monomers, therefore, reaction kinetics and morphology are dramatically different from applying polymer as disclosed in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kin-Chan Chen whose telephone number is (571) 272-1461.
